CHAPTER I'S NEWSLETTER

May 2015

BOB AND BECKY'S PAGE

How's it going--good? FIRST OF ALL, the May meeting will be at Chapter P's fundraiser, May 2nd. -NOT AT Ryans . As you remember, we changed our gathering night from the second weekend in May to the first because of Mothers Day weekend meal cost. After discussing with both chapters, we decided why not have our gathering at Chapter P's fundraiser since it was on May 2nd. Those who want to follow us up, we will leave the license bureau at 2pm. Those who want to go directly to the Town and Country Resort, the address is 7555 Shilling Rd. West Salem, Ohio 44287. We will try to get there by 3:00 for their meal time, which will be hamburgers, hot dogs, beans potato salad, etc. for a suggested \$5.00 donation.

After the meal, Chapter I will try to hold a short meeting. For those interested, Chapter P's fundraiser goes on all weekend-any questions call John or Lois -330-723-6689 Chapter P CD or Patti at 330-421-6428. We had a good turn-out for the April 16th dinner at Des Dutch Essenhaus with 19 members attending-good food and good conversation!

We are sorry to lose a dear friend and chapter member, Ken McKinley who passed away on April 18th. Will miss our rides together and especially our fall trips to Myrtle Beach. Our deepest sympathy to Pearl and the family. It looks like the first Open Ride for the season will be May 3rd. -meet at the license bureau at 1:00 and leave at 1:30. On May 9th, Cherry Hair will lead a ride to McConnelville , The Boon-docks BBQ restaurant. Those in the Wooster area will leave the license bureau at 10:00am and will meet up with other riders at Millersburg Marathon Bellstore on Rt. 83 at 10:30 and be ready to leave at that time. On May 16th, Chapter I will be hosting the North Central Picnic at New Pittsburgh eat at 12:00-see flyer. After the picnic, we will be heading for Chapter T's fundraiser in Randolph, Ohio. The spaghetti meal which starts at 4:30, will include salad, bread, and drink. The cost is \$7.00. There will also be a silent auction. On Sunday, May 17th Chapter B will be having there fundraiser at Liederkrantz , a brunch at 11:00am-all you can eat for \$8.00 and the auction afterwards starts at noon. We will leave the license bureau at 10:00. We have nothing scheduled for Memorial Day weekend, enjoy with family and friends and be sure to remember those who gave their lives for our country. Sunday, May 31st, there is an open ride, meet at license bureau at 1:00 and leave at 1:30 to destination that was decided on and the same thing for June 7th.

Let's support Ron Jr. as his father supported Chapter I tremendously and was a Fantastic Member

RON'S RIDER EDUCATION PAGE

The Faster You Go, The Less You Weigh!

By: James R. Davis

Honest!

If you were to measure how much your motorcycle (and you) weigh at a dead stop and then while you are moving at, say, 80+ MPH, there would be a meaningful difference.

This happens because the faster you travel through the air, the lift that the relatively low pressure of turbulence creates. Turbulence below the bike is trivial by comparison to that above it.

And, if instead of sitting straight up you are leaned forward, your back creates an airfoil that creates even greater lift. If the combined weight of you and the bike, when at a dead stop, is about 800 pounds, then when you are moving at speeds of 80+ MPH that combined weight will be closer to 760 pounds, or less. And the faster you go, the lower that total will be. For comparison purposes, a 1970 Chevelle weighed in at 3820 pounds standing still and was found to weigh 321 pounds less (8%) at 100 MPH. Your bike will probably not lose more than 6% of its weight at that speed (or at, for example, 80 MPH with a 20 MPH headwind) because it does not have quite the horizontal profile of an automobile.

You might think the lift would be evenly distributed fore and aft. Wrong. Far more of the lift is on the front wheel than the rear. And why that's important is that with a lowering of weight on the front end there is a corresponding reduction in traction and, thus, stabilizing force available from trail. Indeed, at very high speeds your motorcycle will feel unresponsive and 'light' in the front end - so much so that you will not trust it (nor should you) to hold onto the ground in your turns.

While there is always a net lift caused by airflow with speed, the effect on the rear end of your bike could well be to increase its weight. This, because just like the amount of weight transfer acceleration generates is determined by how high the center of gravity is as compared to the wheelbase, wind resistance creates a down force in the rear proportional to how high the center of wind resistance is to that wheelbase.

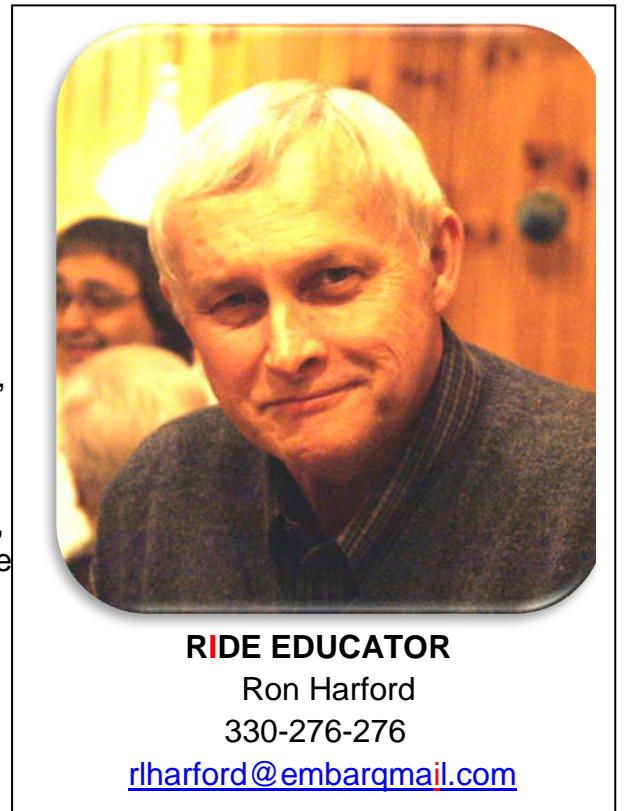

[All wind resistance is above the ground while all forward motion forces are at ground level. That automatically creates a torque which tries to lift the front and lower the rear.]

Down force on the rear wheel can be less than, equal to, or greater than the lift generated by turbulence as described above and that is largely determined by how high the center of wind resistance point is relative to the wheelbase.

The taller you sit, the more 'baggy' your clothing, the 'wider' you are, the bigger your windscreen, and the faster you move ... the lighter your front end will get, but the more likely the bike's rear end will get heavier rather than lighter.

Lest you think this is academic... the reason there are short (seemingly useless) windscreens on sportbikes is to diminish the turbulence BEHIND the rider so that there is not so much lift of the bike at speed that control is badly compromised. They are small so that they do not, at the same time, increase downforce from wind resistance that would lighten the front end even more. Tourers take note: your windscreen lightens your front end dramatically!

Given enough horsepower and proper gearing your maximum possible speed becomes limited to that which results in insufficient front wheel traction to steer the motorcycle.

SUNSHINE LADY

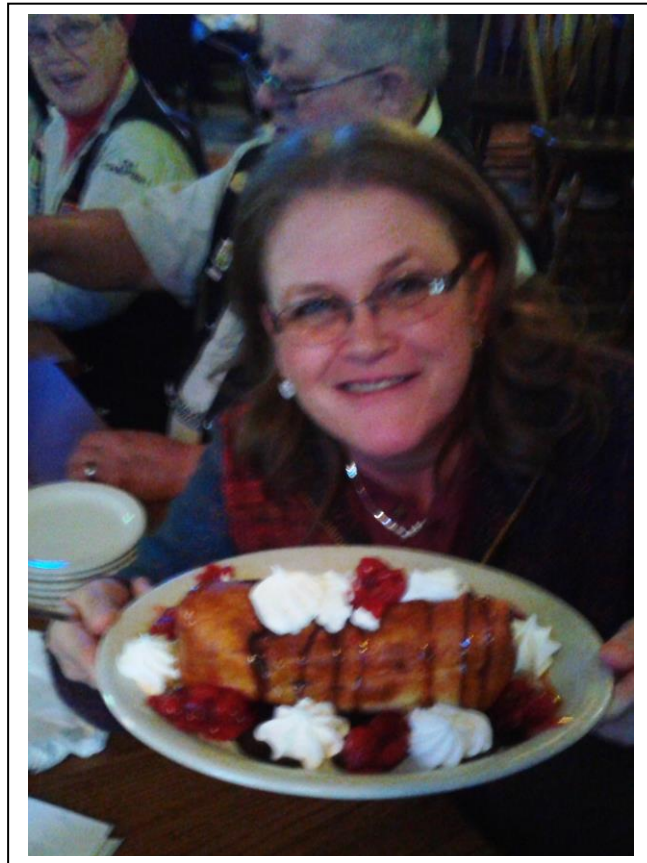

Well Greetings to our dear Goldwing Friends; Not really sure where this last month went BUT it was mentioned that 8 months from yesterday (the 25) will be Christmas.....have ya got that list started yet? Before that happens, let's get our members well so they can attend a few special events and rally's coming up. Rob and Sue Jester are back in Ohio, maybe a few days earlier than they'd planned. CiCi (their dog) was trying to rush Sue (they were still in FL) causing her to fall , breaking her left wrist in 3 places. She's had surgery (in Wooster) with 2 pins being put in.....wishing her a speedy recovery. Helen Burchfield is home after having a little time in a nursing home after her hospital stay.....she was doing much better last week. No recent news on Dave Martin so we're hoping things are going ok. Our prayers have been with the Blackburn's with the loss of Wayne's father and to the McKinley family with the passing of our member Kenny McKinley.

Prayers to all for good health and safe traveling

Nancy Lantz -- Ohio Chapter I Sunshine Lady
