## CHAPTER I'S NEWSLETTER

OCTOBER 2015

### BOB AND BECKY'S PAGE

How's it going-good?? Well as you can tell by the tree leaves summer has come and gone, we are started into fall. Hope there will be more good weather riding days to enjoy. We definitely had a very busy summer. As we look back through the ride schedule and see all the fun rides and get together's, I am glad we got to do as much as we did. We want to "THANK" Sue Jester for filling in for us at September gathering. We understand she done an excellent job and to the rest of the members who helped out, THANK you, too. There is still more to do on the ride schedule and one of the things that has come up that we definitely want to do is Chapter V2's Rigatoni and Auction -this is there fundraiser and it is Sunday October 4th. at Wintersville, Ohio. The time for the event is 2:00-6:00pm, with the auction starting at 4:00pm. We will be sending out a reminder by email, but the way it looks like now due to weather conditions, we will probably be driving. This is Tom Straka's chapter in Wintersville, Ohio. The chapter is always good about coming to our road kill stew fundraiser. It would be very good if we could get a good group to go. Look for a reminder on leaving time and location. We also have C3's fundraiser which is Saturday, October 10th, which is the same day as our chapter gathering. We plan on attending it before our gathering, those interested in going, we will leave the license bureau at 12:00 noon. Look for flyer in this newsletter don't forget our road kill stew and auction on Saturday, November 7th at Mayer Carson Hall in Apple Creek. Check flyer in newsletter. Try and gather up your new or good used items for the auction. There are other chapters already looking forward to it. At our October gathering, we will be drawing passports for our chapter before we take them to the officers meeting in November. You must be present to win our drawing for dinner for two that night. We want to thank everyone who attended the rides on the schedule to the Killbuck Pizza, Cleveland Zoo, and Chapter V teddy bear ride. We understand the members who attended the Buckeye Time Out also had a good time.

October 4th V2 Fundraiser

October 10th C3 Fundraiser

October 10th Chapter I Gathering at Ryan's Family Steakhouse 5:00pm

October 17th Leaf ride: license bureau @ 1:00pm wiener roast at Rob&Sue Jesters at 5:00pm

October 25th Open

November 7th Chapter I Annual Road Kill Stew & Auction

# RON'S RIDER EDUCATION PAGE

## Right And Left Turns

By: James R. Davis

If all you had to do was ride in a straight line, almost anybody could handle a motorcycle. But in the real world we have to negotiate turns with our bikes. While it is convenient to not accurately believe that making a right turn is exactly the same as making a left one except for direction. There really are different risks and realities involved.

For example, in all countries where we ride on the right side of the road, right turns are sharper than left turns, while the reverse is true in the other countries. (This article will focus on the US road model.)

That means that right turns are harder to negotiate than left turns at any given speed. It also means that in addition to being harder to negotiate, if you mismanage the turn and go wide, you will find yourself in a lane of traffic that is running in the opposite direction. In a left turn situation that you mismanage you will find yourself off the road entirely.

Which is more dangerous is largely a function of chance. If, for example, there are no oncoming cars when you mismanage a right turn, at least you remain on pavement and have the chance of recovering from going wide, but any oncoming cars present you with a head-on collision as an alternative.

Running off the road in a mismanaged left turn may not be worse than taking a tumble, but it could very well involve falling off a mountain.

While making right turns involves greater lean angles at any particular speed than a corresponding left turn, there is usually MORE TRACTION available in a right turn than when turning to the left. This, because most roads are crowned. Thus, while turning to the right the road is cambered into the turn while turning left it is cambered away from the turn.

Left turns effectively provide you a narrower lane for use by your motorcycle. That is, because you must lean a motorcycle in order to make a turn, you cannot ride as far to the left within your lane when making a left turn as you might like without dragging your head or left grip across the center line and into the path of oncoming traffic. Unless there is a retaining wall involved, motorcycles can use their entire lane width when making right turns.

Making a right turn at an intersection is FAR LESS dangerous than making a left turn at that intersection. The most obvious reason being, of course, that you do not have to cross the path of any oncoming traffic to do so. (As an aside, a pedestrian crossing the street at an intersection is FAR LESS at risk if he keeps the center of the intersection to his right rather than to his left because immediate danger comes only from his left and less immediate danger comes from easily visible sources.)

Turning left has two other dangers that are not present when making right turns: (1) The possibility that your side stand is down and, because most road surfaces are crowned, (2) you cannot lean a bike as far in a left turn as you can in a right turn without dragging some part of the motorcycle against the pavement.

One final thought: If you make a left turn across an oncoming traffic lane your danger is not restricted solely to that oncoming traffic. Before you actually make your left turn you must do a head check to the left to insure that someone is not trying to pass you on the left! If you are struck by that passing vehicle **YOU ARE TO BLAME** as you have performed an unsafe lane change!!!!

## SUNSHINE LADY

. 😊 Greetings to all Goldwing members -- here we are again another month has passed, summer has ended and fall has begun. This past month has been busy, fun filled along with a little sadness. At this point Chapter I would like to send condolences and prayers to the Smedley family with the passing of Dori Smedley. She was the wife of Don who were active members a few years back. As some might have seen Don around with his blue trike/sidecar -- with an alien as passenger in the sidecar.

On the "happy" note we had a SUPER Sept. gathering with Sue Jester filling in -- it can be done! On the following Monday and Tuesday Rob Jester had a visit to the VA hospital coming home feeling better as each day passed of which they, the Harford's, Sudimak's (also grandson) and Lantz's traveled to Plain City for Buckeye Time Out the weekend following. They were joined also by Joyce and Tony Miller of Chapter V. Some attended the Wayne county fair, then there was a wonderful turn out for pizza in Killbuck, also fun times were had at the Cleveland Zoo yesterday. Then just today (Sept. 27) had 5 bikes attend Chapter V Teddy Bear Ride of which we joined their chapter traveling to Republic to eat. What a wonderful day for a ride along with a few sprinkles. As we go into the month of Oct. we've many activities coming with our "open ride Sunday" Oct. 4th being filled in by going to V2 Rigatoni Dinner -- watch for information 🤪! Oct 8th we'll be going to Smithville Sam's Pizza --yum yum -- then Oct 10th (a full day) C3 Fund Raiser dinner and auction (watch for information) and then our Chapter I gathering at Ryan's at 5 to eat and meeting at 6. Be sure to also keep Oct 17th open for a leaf ride and weiner roast at Rob and Sue Jester's at 5:00pm. Start now and if you already haven't to gather those like new items of which are getting in your way to take to the Road Kill Stew Supper and Auction on the 7th of Nov.

Keep all in your prayers as many of our members have their good days and then not so good! Love and Hugs to all and hope to see you soon! 😊 Keep "smiling" as it makes everyone feel better!
